

# LEADERSHIP

Young people at university level in student halls  
and other non-formal educational contexts

Which skills to increase:

- empowerment
- employability
- “usefulness” to society ?

# FIVE COMPETENCIES

1. Advanced understanding of the concept of transformational leadership (delegational style) and the capacity to connect theory and practice
  2. Take responsibility in managing complex projects: identify, analyse and solve problems, and take decisions based on systemic thinking (having a vision, seeing the global perspective)
- 

3. Capacity to empower and enhance the development of individuals and groups in terms of motivation and working towards common goals – knowing how to manage personal and social emotional dimensions

4. Advanced ability to communicate

5. Capacity to see opportunities, be innovative and creative
