Activity: organization and management of the Padova summer IP

Addresses: leadership, teamwork, communication, project management

Aims/Intended Learning Outcomes: design and management of specific tasks in the frame of the summer IP

Time required: 6-8 meetings lasting 2-3 hours each

Group size: 7-10

Context/setting: in the classroom and in all spaces hosting the IP

Description:
   a) students plan with the facilitator the agenda of the summer IP, relating each competence/dimension of the competence to each activity
   b) students are grouped in pairs, each of them responsible for organizing presenting and coordinating one day of the IP
   c) each team collects all required resources, send information to other students, prepares the outline of the day, with the support of the facilitator
   d) each team is responsible of scaffolding self-managed groups of reflection every day, after the activity planned
   e) students are asked to self-evaluate their own work using appropriate indicators

Variations: n/a

Materials needed: laptop, papers and pencils

Inspired by: designed and realized by Anna Serbati and Alessio Surian
